

## USING VOICE CONTROL

**Note:** The Voice control system has been designed to recognize a number of languages. However, Jaguar cannot guarantee the system will be compatible with every accent group within those languages. Please speak to a Retailer/Authorized Repairer about testing the Voice control system for compatibility with a particular accent group.

**Note:** The Voice control system will not operate, unless the SD card supplied with the vehicle is inserted correctly into the SD card slot. See **130, CONNECTING A MEDIA DEVICE.**

### **⚠ WARNING**

**Do not allow the Telephone, Navigation or Touch screen systems to distract the driver while the vehicle is moving. Driver distraction can lead to accidents causing serious injury or death.**

E168148

To start a voice session, briefly press the voice button on the steering wheel. The **Teleprompter list** appears on the Touch screen. To cancel a voice session, press and hold the voice button.

**Note:** Briefly press the voice button during a voice session, to interrupt audible feedback. Wait for the tone to sound before giving the next command.

**Teleprompter list:** This list provides feedback and available commands for each stage of the voice session.

**Voice symbol:** This indicates that a command is available. Wait for the symbol to appear and a tone to sound before saying a command.

**Note:** As the commands are listed before the system is ready to listen, it is important to wait for the voice symbol to appear, before saying a command.

Say **Cancel** (at any time) to cancel the current voice command.

**Note:** All feature items listed (that can be activated by the Voice control system) can also be activated by touching the relevant command list item on the Touch screen.

A list of the available features can be displayed by saying the voice command, **More Commands**. Alternatively, saying **All Commands** (or selection via the Touch Screen), will enable visual and audible instructions to be given in a default sequential order, starting with **Navigation Commands** and then followed by other available features.

The Voice control system will work with the user to display the feature lists individually. Say (or select) **Navigation Commands** or **Phone Commands**, then only the relevant commands for that feature will be read out and displayed.

## NAVIGATION POI VOICE COMMANDS

To request the display of Points Of Interest (POIs), say **Find next** with one of the following POI categories:

- **Find next (Gas station/Gas).**
- **Find next (Parking).**
- **Find next (Jaguar [Retailer]).**
- **Find next (Hospital).**

# Voice control

- **Find next (Golf course).**
- **Find next (Tourist information).**
- **Find next (Restaurant).**
- **Find next (Shopping mall).**
- **Find next (Hotel/Motel).**
- **Find next** (say a Brand name) of the POI category.

**Note:** The words **Find next** must be followed immediately by a category.
